#NOTE :

(1) For train transfer from Meitetsu line to JR lines, Kanayama station is much more convenient than Nagoya station since Kanayama Meitetsu station is adjacent to Kanayama JR station.

(2) In the JR Chuo line, there are various kinds of trains, but **only LOCAL trains are available to stop at Jinryo JR station**. Other trains (ex. rapid) will pass through the Jinryo JR station. The local trains will be operated with an interval of 10-15 min. approximately (depending on time). See Fig. 1 how to recognize the local train.

(3) For transferring from JR Chuo line to University's school bus at the Jinryo JR station, the school bus terminal is located near the north exit of the Jinryo JR station by about 1-2 min. walk from the entrance gate (see Fig. 2). The school bus is available with a charge of 200 JPY, and will take about 10 min. between Jinryo JR station and Chubu University. Table 1 shows the time table of the school bus during period of the ISPlasma2012.
