

Industry-Academia-Government Collaboration Session

“Establishment of Global Research Hub toward Sustainable Development”

ISPlasma 2012 is the 4th International Symposium on Advanced Plasma Science and its Applications for Nitrides and Nanomaterials which will be held at Chubu University, Aichi, Japan from March 4th through 8th, 2012.

During this symposium, we will provide you with a valuable opportunity to share and discuss ideas on means of establishing research hub which contributes to sustainable development of the industry in Tokai region.

We look forward to welcoming you to this event.
